HANDWOVEN

FAT BALL HOLDERS & WILD BIRD HOUSES

Product concept — 100% natural woven grass bird feeders and wild bird houses, by Boldpartners (Bangladesh)

Eurobempet presents a range of handwoven fat ball holders, beautifully crafted from natural grass by Boldpartners in Bangladesh. 100% plastic-free and eco-friendly, these holders are designed for standard fat balls, fat blocks and fat rolls, making them the perfect sustainable solution for wild bird feeding. Their rustic, natural look blends seamlessly with any garden setting, appealing to the growing segment of eco-conscious bird lovers. A strong, differentiated private label product ready for garden center and pet retail.

KEY USP's

Sustainable, 100% Natural Materials

Plastic-free, safe and eco-friendly. Made entirely from natural woven grass with no synthetic components.

Perfect for Wild Birds

Ideal for holding standard fat balls, fat blocks and/or fat rolls. Suitable for all common garden bird species.

Strong & Durable Design

Tightly woven construction for long-lasting outdoor use — holds its shape and strength through all seasons.

Rustic, Natural Look

Blends beautifully with garden surroundings. A product that looks as good as it functions on any branch or hook.
